Colocation Information

530 W 6th Street
Los Angeles, CA 90017

Crown Castle owns and operates approximately 80,000 route miles of fiber supporting small cells and fiber solutions across every major US market. We have 900+ connected data centers and 100+ colocation facilities including regen huts and pedestals. Our LA facilities are equipped to offer low-latency; minimal hops and reduced points of failure. The data center is located on the 4th floor of the Telecom Center LA Building, directly adjacent to the One Wilshire Building on the corner of 6th Street and Grand Avenue in the heart of the "Telecom District" in downtown Los Angeles.
