25.2.5.3 InSBEP with Managed IP Enabled Routing Device Service (InSBEPM)

25.2.5.3.1 InSBEPM Minimum Bandwidth Commitment

Contractor’s Description of Service:

Dedicated Internet Access with an assigned bandwidth commitment which shall be the minimum bandwidth commitment and is inclusive of a managed IP enabled routing device. Burst rates for usage above the committed bandwidth shall apply.

Geographic Availability:

Greater Los Angeles, Inland Empire and Orange County, Greater San Diego. Other areas in California may be available.

Service is subject to availability. In cases where service is not available to a specific location, special construction charges may apply. Special construction cannot be ordered using the CALNET contract and must be procured through other methods.

State Associated Administrative Fee Charge - Services identified below with “Yes” in the SAAF Applied column will have a 2.5% fee applied to the Monthly Recurring Charge or usage. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer’s invoice.
