Our fiber backbone for faster expansion.

You power them.
We power you.

Fast, reliable internet is no longer a luxury—**it's an expectation.** With skyrocketing demand for residential connectivity, ISPs, telecommunications companies and network operators need agile solutions to meet customer needs. In fact, 63% of US consumers rate fiber broadband as the **best method for delivering speed and reliability**, scoring 2.5X higher than cable. High-quality broadband is now seen as a critical amenity in homes, second only to a laundry room.[1]

With a vast ≈**90,000 route mile fiber network** and minimal upfront costs, Crown Castle helps wholesale partners access growing residential markets. As a **neutral host** with 30+ years of experience in communications infrastructure, we've worked with customers to deliver **reliable, scalable solutions backed by 24/7 customer support.** Our proven deployment strategies ensure your network scales with your business.

CROWN CASTLE

Your partner in expansion.

The benefits of
Crown Castle's fiber backbone.

Our infrastructure isn't just a network—it's the foundation from which to expand, scale and grow.

1 **Our fiber backbone for faster expansion**

Expand your network with minimal upfront investment and a fast-to-market solution.

2 **Stronger connections and faster speeds**

Our high-speed performance delivers reliability and low latency, keeping your customers connected and moving forward.

3 **Ready to scale with your business**

Our future-ready backbone supports growth—helping you scale to meet new demand.

4 **The neutral host advantage**

As a neutral host provider, we secure your future endeavors and give you the flexibility to densify your network on your terms.

CROWN CASTLE

Your partner in expansion.

Tap into our **flexible deployment solutions.**

Your path to market shouldn't slow you down. Crown Castle's extensive fiber backbone gives you options that fit your needs, so you can grow faster.

Deployment solutions to fit any challenge:

- ◢ **Dark fiber:** Build and scale your network with total control.

- ◢ **Wavelengths:** Power high bandwidth for seamless performance.

- ◢ **Ethernet:** Secure, scalable solutions that keep businesses moving.

The backbone **you can build on.**

Whether you're deploying, extending or densifying, **Crown Castle's infrastructure** provides a strong foundation to support speed, scalability and growth.

CROWN CASTLE   **Your partner in expansion.**

Your growth.
Our infratructure.

Crown Castle's ≈90,000 route miles of fiber and unique infrastructure deliver the power you need to expand faster, reach more customers and create stronger connections—all with minimal upfront capital.

Why Crown Castle?

▲ Extensive fiber coverage delivering speed and scalability

▲ Ready-to-deploy solutions that let you expand on demand

▲ Neutral host support that secures your network's future
